WWW.EARTHWELLFESTIVAL.ORG

“WELCOME TO THE VILLAGE!”

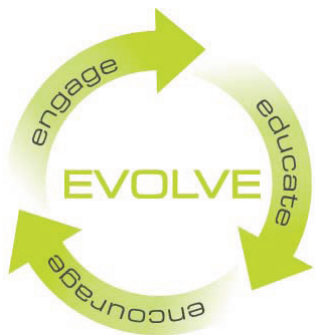

EarthWell Festival was conceived as a Village: a cross between the cutting-edge of a Green Expo and the fun and funk of a Renaissance Faire. We have restaurants, shops, a medical clinic, streets, parks, a kid’s area, places of worship, music, bars, a theatre, and even a “University” with classrooms.

Instead of booths we have shops and shopkeepers. Instead of police or security we have a “Please Patrol.” Instead of politicians, we have suggestion boxes.

Our goal is to create a world you can step into for a few hours, leaving the old one behind, and have some fun. Try new things, sample new foods, explore alternatives; in short, discover how easy and comfortable it can be to live a greener, more healthy life.

We hope you will have a delightful time here and leave a better person for having visited

Chris Bachman,
Festival Director

WHAT'S THE FUTURE OF EARTHWELL AND EARTHWELL FESTIVAL

Ideally, the Festival will grow into the largest event of its kind in the region, becoming a place where all things good, green and healthy can be celebrated and shared; a place of joy, merriment, good food and education. We hope to evolve to having forums for public discussion, creating a gathering of alternative energy vehicles, expanding the roster of speakers and classes, and so much more.

During the rest of the year, we plan to launch a series of workshops, retreats, seminars, and speaker circuits to help support and spread the message of sustainability and wellness throughout the year. If you have ideas, comments, suggestions or criticisms, please let us know.

SUSTAINABILITY EFFORTS

EarthWell is committed to creating a fun, encouraging, educational environment while leaving a small carbon footprint.

RECYCLING

EarthWell takes festival recycling seriously. It may just be one festival, for two days, and a few thousand people ... But that is how change begins.

PROHIBITED ITEMS

NO Plastic Bags • NO Disposable Plastic Bottles • NO Styrofoam

These items are bad for people and bad for the environment. They just don't make sense. Make the choice. Choose to Reuse.

Festival goody bags are 100% recycled cotton.

SERVICEWARE

At EarthWell Festival, everything you eat with, are served on, drink from or wipe your face with is **biodegradable, compostable, recyclable and/or reusable**. See, it isn't that hard.

SHADE ZONES

Our portable shade zones are an experiment born of creative need. They were built using found materials, are easily storable, reusable and entirely recyclable.

PRINTING

EarthWell avoids printing whenever feasible. For the festival, we chose digital options for brochures, letterhead, envelopes and more.

When printing, we used a printer that takes sustainability practices to heart. From chlorine-free paper to vegetable inks, biodegradable packaging and 100% wind power, PrintingForLess.com is our printer of choice.

And, if you received a discount by participating in our online survey, you helped us remove paper waste from the system. No paper form, no printed coupon, nothing but a few clean bytes of information. Thank you!

PRE-PREPPEd FOOD

Most of our chefs have prepped food in their own kitchen before bringing it to the festival. This means less to haul back and forth (saves gas), less waste on-site (efficient), better storage, and **fewer additional resources like power, gas and water are needed at the festival.**

SOLAR POWER

Oh yeah, did we mention? **EarthWell Festival is 100% solar powered.** Neat, eh?

THANK YOU!

Wondering how the EarthWell Festival got started? With a dream and a lot of work. EarthWell is the culmination of my experience in promotion, a love of the earth, interest in alternative and complementary healing, fond memories of Renaissance Faires, visits to Burning Man, and a desire to do something to help the world we all share.

It has been a tremendous amount of work, with all the twelve-hour days and no pay that goes along with a labor of love. Every piece of what you see at the festival involved many hours of dreaming, planning, building and organizing. All told, just for myself, there have been 2,200 hours spent in the past ten months raising this festival from dream to reality.

But enough about me ... Without the volunteers who spent hours working for essentially nothing, without the businesses that stepped forward to provide assistance, without all the people offering encouragement along the way, it wouldn't have happened.

So, thanks to all of you who offered support during the creation of EarthWell, and, many more thanks to every one of you who is here today supporting the festival with your presence.

Chris Bachman
Festival Director
